Introduction

The names, dates, and other information in this book were taken from cemetery tombstone inscriptions. Only in a very few cases were written cemetery records consulted, and it will be noted if the cemetery readings were cross referenced with any other written record.

All cemeteries were read beginning from the southeast corner and numbered south to north.

As in any project of this type, where many names and dates are copied, there is a chance of error. However all inscriptions were read and recorded with great care and to the very best ability of the recorder. They were typed with the same concern for accuracy.

The help of everyone who has been involved with this project has been greatly appreciated by the cemetery committee and the Henry County Genealogical Society. A lot of time and effort on the part of members, their friends, and spouses has made this book possible.

Courthouse records and various county history books were used as reference for information about townships and cemeteries.

The county and township maps were reproduced from maps obtained from the Henry County Board of Commissioners. The cemetery maps were copied for us by the employees in the Recorder's Office at the Henry County Courthouse.

These cemetery maps were done by The Works Project Administration (W.P.A.) and co-sponsored by the American Legion, Department of Ohio - State of Ohio in 1940.

According to the World Book Encyclopedia "The Works Progress Administration was founded in 1935 to provide work for needy persons on public-work projects."

Liberty Center is the only town in the township and it was the second village in the county to be incorporated. In 1888 the population of Liberty Center was between 500 and 600.
